## What Is Claimed:

- A method of treating hot flashes in a patient comprising:
   providing a tachykinin receptor antagonist selected from the
  group of NK<sub>2</sub> receptor antagonists and NK<sub>3</sub> receptor antagonist; and
   administering the tachykinin receptor antagonist to a patient
   experiencing hot flashes under conditions effective to treat the hot flashes.
- 2. The method according to claim 1, wherein the tachykinin receptor antagonist is a NK<sub>2</sub> receptor antagonist.
  - 3. The method according to claim 2, wherein the NK<sub>2</sub> receptor antagonist is selected from the group consisting of saredutant, MEN 10627, and combinations thereof.

15

- 4. The method according to claim 1, wherein the tachykinin receptor antagonist is a NK<sub>3</sub> receptor antagonist.
- 5. The method according to claim 4, wherein the NK<sub>3</sub> receptor antagonist is selected from the group consisting of talnetant hydrochloride, osanetant, and combinations thereof.
  - 6. The method according to claim 1, wherein the tachykinin receptor antagonist comprises a combination of tachykinin receptor antagonists.

25

7. The method according to claim 6, wherein the combination of tachykinin receptor antagonists comprises a second tachykinin receptor antagonist selected from the group of NK<sub>1</sub> receptor antagonists, NK<sub>2</sub> receptor antagonists, and NK<sub>3</sub> receptor antagonists.

30

8. The method according to claim 1, wherein the tachykinin receptor antagonist is administered in an amount of about 10 to about 5000 mg per day.

		9.	The method according to claim 1, wherein the patient is a
	female patient	t.	
5	postmenopaus	10. sal.	The method according to claim 9, wherein the female patient is
10	induced, surgi	11. cally in	The method according to claim 10, wherein menopause is drug duced, or naturally-occurring.
	induced.	12.	The method according to claim 11, wherein menopause is drug
15	estrogen comp	13.	The method according to claim 12, wherein the drug is an anti-
	compound is t	14. amoxif	The method according to claim 13, wherein the anti-estrogen en.
20	patient.	15.	The method according to claim 1, wherein the patient is a male
25	experiences di	16. rug indu	The method according to claim 15, wherein the male patient aced hot flashes.
	androgen com	17. pound.	The method according to claim 16, wherein the drug is an anti-
30	compound is l	18. euprolic	The method according to claim 17, wherein the anti-androgen de acetate.
		19.	The method according to claim 1, wherein said administration

is carried out orally, parenterally, subcutaneously, intravenously, intramuscularly,

The method according to claim 1, wherein said administration

intraperitoneally, by intranasal instillation, by implantation, by intracavitary or intravesical instillation, intraocularly, intraarterially, intralesionally, transdermally, or by application to mucous membranes.

- 5 20. The method according to claim 1, wherein the tachykinin receptor antagonist is present in a pharmaceutical composition comprising the tachykinin receptor antagonist and a pharmaceutically-acceptable carrier.
- 21. The method according to claim 20, wherein the pharmaceutical composition is in a liquid or solid dosage form.
